## EXTENDING THE TIME.

From first to last this country has poured a considerable sum of money in to Europe for the purpose of relieving fistressing conditions. Great amounts have gone as direct gifts. Large sums have been provided to tide over situations with the expectation that they will some day be repeld.

This is the case in connection with the \$24,000,000 furnished that the starying in Austria might have something to eat. It was advanced at the solicitation Austria and as security this govern ment took a mortgage on the Austrian state property. American wheat was purchased and forwarded and the good that was done has been indicated

many ways since that time. Austria was not able to provide the money for the wheat at the time and it is not now able to pay for the money we advance. It would of course be possible for this government to insist upon its pound of flesh, but there isn't any such disposition. The aituation in that country is well understood. It is having dif-

The idea is to give Austria a chance, to let it get on its feet, and while it may not be entirely recovered from the effects of the war in a period of 25 years it is undoubtedly true that such time will find it in better shape to make payment of the money advanced. Delaying payment is like extending a helping hand and steering clear of the practice of further handicapping a country just because it happens to be down.

INCENDIABY FIRES,
Attention cannot fail to be directed to the conditions which were disclosed to the firemen at the Hertz building in Thames street Tuesday night and which in the opinion of Chief Stanton indicated that the fire was of incendiary origin. Decidedly suspicious is the evidence to the effect that fires were found on three floors at the same time in a concrete building.

The situation would appear to be such in the conditions would appear to be such in the plant of the same time in a concrete building. that means ! Youd just die if I wore any-

## Increases the action of the intestines

Hundreds of men and women have already found freedom from laxatives by eating Fleischmann's fresh yeast.

Doctors are now agreed that proper elimination of waste matter should be brought about by food. One doctor comes right out and states plainly that the indis inate use of cathartics is one of the causes of constipation.

Physicians all over the country are recommending Fleischmann's fresh yeast because it is a fresh food, rich in those elements which keep the intestines healthy. In one series of tested cases, normal func-tions were restored in from 3 days

Try it out for yourself. Begin to-dayby adding 2or 3 cakes of Flaisch-mann's Yeast to your everyday diet. Keep it up and see how nor-mally and regularly your intestines act. Be sure it's Flaischmann's Yeast—the familar tin-foil pack-age with the yellow label. Place a standing order with your grocer.
